THE MEMPHIS DAILY APPEAL.

ESTABLISHED 1840. MEMPHIS, TENN., THURSDAY, JULY 15, 1869. VOL. 29—NO. 312

BY TELEGRAPH.

Dispatches to the Southwestern Press Association.

NASHVILLE.

Politics in Tennessee---The Stokes Party Growling.

NASHVILLE, July 14.—The political campaign is increasing in interest, owing to the increase of registration lists. The Conservatives are now changing their policy and propose to run candidates of their own for the Legislature, where there is a chance for their election. Heretofore they recommended the support of Republicans pledged to universal enfranchisement.

The friends of Gen. Stokes complain bitterly of the conduct of the new Registrars, and charge that one of them has issued a certificate to a rebel soldier in Bedford county.

FOREIGN.

No Signals from the Great Eastern since Monday---Riot in Belfast.

BREST, July 14.—No signals received through the cable from the Great Eastern since the dispatches of Monday. It is supposed no accident has occurred.

BELFAST, July 14.—A serious riot occurred here between the Catholics and Orangemen on the 12th. Windows of many buildings were smashed. One Catholic schoolhouse was gutted and another badly damaged. Several of the rioters were wounded, and one, an old man, had three ribs broken.

LONDON, July 14.—Meetings in favor of the disestablishment of the Irish Church have been advertised and held in various parts of the kingdom.

WASHINGTON.

Registration and Election in Mississippi---Proclamation by the President.

WASHINGTON, July 14.—Maj. Wofford, of Mississippi, is here, in behalf of the Conservative Republicans of that State. He visited Gen. Sherman this morning, and received from him assurances that the registration and election in Mississippi shall be impartial, and that the military officers to conduct the registration and election will be ordered to Mississippi for the same duty.

A proclamation providing for the election in Mississippi on the fourth Tuesday in November has been signed by the President.

The following was promulgated today by the President:

A PROCLAMATION.

In pursuance of the provisions of an act of Congress, approved April 10, 1869, I hereby designate Tuesday, the 30th day of November, 1869, as the time for submitting the Constitution adopted on the 15th of May, 1868, by the Convention which met in Jackson, Miss., to the voters of said State, registered at the date of said submission, viz: November 30, 1869, and I submit to a separate vote that part of section 3 of article 7 of said Constitution, which is in the following words: "That I am not disfranchised in any of the reconstruction acts of the 39th and 40th Congress, and that I admit the political and civil equality of all men, so help me God," provided that if Congress should at any time remove the disabilities of any person disfranchised in said reconstruction acts of the said 39th and 40th Congress, and the Legislature of this State shall concur therein, then so much of this oath only as refers to the reconstruction acts shall not be required of such persons so pardoned to entitle him to be registered, and I further submit to a separate vote section five of said Constitution, which is in the following words: "No persons shall be eligible so offices of profit or trust, civil or military, in this State, who was a member of the Legislature that voted for the call of the Convention that passed the ordinance of secession, or as a delegate to any Convention, or voted for or signed any ordinance of secession, or who gave voluntary aid, countenance or encouragement to persons engaged in armed hostility to the United States, or who accepted or attempted to exercise the functions of any office, civil or military, under any authority or pretended governmental power or constitution within the United States hostile or inimical thereto, except all persons who aided reconstruction by voting for this Convention, or have continuously advocated the assembling of this Convention and shall continue in good faith to advocate the acts of the same; but the Legislature may remove such disabilities: provided, nothing in this section, except voting for or signing the Ordinance of Secession, shall be so construed as to exclude from office the private soldiers of the so-called Confederate States army; and a further separate vote of article 5, act 7, of the said Constitution, which is in the following words: "The credit of the State shall not be pledged or loaned in aid of any person, association or carporation, nor shall the State become stockholder in any corporation or association, and I further submit to separate the vote in the part of the oath of office prescribed in section 26, in article 12 of said Constitution, which is in the following words: "That I have never as a member of any Convention voted for or signed any ordinance of secession, that I have never been a member of the State Legislature that voted for a call for any Convention that passed any such ordinance; the above oath shall also be taken by all city and county officers before entering on their duties and by all other State officers not included in the above provisions." I direct that the vote be taken on each section separately and on other portions of the said Constitution in the following manner: Each voter favoring the ratification of the new Constitution excluding the the provisions above quoted, as adopted by the Convention of May 15, 1868, shall express his judgment by voting for the Constitution. Each voter favoring the reception of the Constitution extending the provisions above quoted, shall express his judgment by voting against the Constitution. Each voter will be allowed to cast a separate ballot for or against either or both of the provisions above quoted.

It is understood that sections 4 to 13, inclusive, under the head of ordinance, are considered as forming no part of said Constitution.

In testimony whereof I have hereunto set my hand, and caused the seal of the United States to be affixed. Done at the city of Washington, this 10th day of July, in the year of our Lord, 1869, and of the independence of the United States the 94th.

(Signed) U. S. GRANT.

By the President.
HAMILTON FISH,
Secretary of State.

OHIO.

MANSFIELD, July 14.—The State Prohibitory Convention nominated J. E. Ingersoll for Governor, and Dr. Wadsworth for Lieut.-Governor.

NEW ORLEANS.

Proceedings Against Deputy Surveyor Keith in Suspense---The Arrest of August Couterie, Etc.

NEW ORLEANS, July 14.—Proceedings against Deputy Surveyor Keith are in suspense, awaiting the result of a disposition on his part to make important disclosures.

August Couterie, principal of the house of August Couterie & Co., was arrested this afternoon, by Marshal Packard, on a warrant from Commissioner Darban, and paroled until morning. A warrant was also issued for Couterie's chief clerk.

Collector Casey labors under heavy disadvantages in the prosecution of these cases, on account of the absence of District Attorney Morgan, who has gone to Europe, leaving his office in charge of a clerk just at the time when his efficient legal aid is imperatively necessary for the protection of the interests of the Government.

It is the universal opinion of the United States officers here that an able special counsel should be appointed by the Government for these cases on account of the large number of persons implicated. Immense amounts are involved and labor attached, and determined efforts of interested parties to defeat the Government officers. Parties connected with the rings freely stated their confidence and ability to triumph; no matter what evidence may be brought against them, having unlimited command of money and influential backers.

Judge Durell, of the United States Court, is also absent, having authorized Collector Casey to approve the bonds in these cases, but in case of disapproval, the bonds are to be sent to Judge Durell for acceptance or rejection.

Supervisor Conklin leaves to-night for Washington. He states that further aggressive action against the revenue defrauders of his department will shortly be taken and interesting developments be made.

ST. LOUIS.

Prize Fight between Allen and Gallagher---Indian Hostilities.

ST. LOUIS, July 14.—A match between Allen and Charles C. Gallagher for a prize fight, was closed yesterday afternoon. The battle is to take place on the 14th of August, within fifty miles of St. Louis, for $500 a side, and open for an increase to $1000, and the excursion money.

A dispatch from Omaha gives the following report from Gen. E. A. Carr, of his operations against the Indians, on the 11th inst.: I surprised a village of Dog soldiers and Cheyennes, under command of Tall Bill, killed 52 and captured 17 women and children, among them a wife and daughter of Tall Bill. They had two white women taken on Saline. They murdered one, whose first name is said to be Sussanan. We gave her a christian burial. They attempted to murder Maria Weigel, but the ball glanced on a rib, and she will probably recover. The surprise was very complete for such an open country. They did not get off a single pack, and left most of their saddles, and will have no shelter or food except horse meat until they can find buffaloes. We captured 350 animals, 86 lodges, forty rifles, 20 pistols, a number of robes and quantities of comp equipage, which was destroyed. The names of their Chiefs captured are Good Bear, Whisky, Powder Face, Pretty Bear, Stern Face and Bull Thigh. We followed them for ten days, and found them at a spring east of the South Platte, near Valley Station. They went back toward the head of Frenchman's Fork. They still have many animals. We galloped over fifteen miles through hills of deep sand. Our horses entirely gave out, and some died. They will require several weeks of rest. I am coming to Fort Sedgewick.

A dispatch from St. Joseph, Mo., says Prof. J. D. Whitney of the Harvard Scientific College, with fourteen scientific students, arrived here this evening, via the Lake Superior mining region. They go from this place to Denver and Colorado.

GALVESTON.

The Great Flood in the Colorado Valley.

GALVESTON, July 14.—To-day cars have been sent out from Harrisburg, Texas, with boats to rescue the sufferers by the flood of the Colorado valley, who took refuge in the tree tops in Eagle Lake bottom, and have been there for two days. Postive information has been received that the water was two feet over the tops of telegraph poles on farms in Eagle Lake bottom, which are cultivated every year. There are various rumors from Bastrop, but as communication is entirely cut off none can be credited. It is impossbble to arrive at the extent of the loss in the towns along the Colorado until the water falls. It has fallen six feet already. The Brazos is still rising. It is reported that all the rivers near San Antonio are out of their banks.

MOBILE.

Burning of a Hotel at Point Clear.

MOBILE, ALA., July 14.—The hotel at Point Clear was burnt last night. The main building was entirely consumed with the furniture. Many of the boarders lost all of their baggage. No lives were lost.

NEW YORK.

Departure of F. C. Morehead for Europe.

NEW YORK, July 14.—F. C. Morehead, representive of the Commercial Convention held in Memphis on the 18th of May, sails to-day to lay the results of that body's observations before the Commercial Exchanges of the principal cities of Europe.

The Communion service of the Plymouth Church, Brooklyn, was stolen Monday evening by sneak thieves.

HAVANA.

HAVANA, July 14.—The remains of Consul Steadman have been interred in Santiago. Twenty officials, civil, military and foreign, accompanied it to the grave.

The weather is very hot, and much sickness prevails throughout the island.

PENNSYLVANIA.

Meeting of the Democratic Convention.

HARRISBURG, July 14.—The Democratic Convention met this morning and selected Mr. Hopkins, of Washington, a Cass man, temporary Chairman. The Convention then adjourned until this afternoon.

In the afternoon the Hon. Asa Packer was nominated for Governor.

BALTIMORE.

BALTIMORE, July 14.—Col. Joseph Bloheiner, one of the defenders of Baltimore in 1814, died yesterday, aged 72 years.

POLITICAL NEWS.

—Capt. A. N. Roach announces himself a candidate for the Lower House to represent Knox county.

—Gov. Senter is recruiting after his East Tennessee campaign, in which he soundly larrupped his opponent, Stokes.

—Ex-President Johnson passed Knoxville Saturday on his way to Middle Tennessee, where he proposes to address his fellow-citizens at a number of places.

—The New York *Herald* says: Now for Mississippi. Mississippi must follow in the wake of Virginia, and roll up a vote like a spring freshet for the Conservative candidate.

—W. W. Hollingsworth, of Claiborne county, has announced himself a candidate to represent that county in the lower branch of the General Assembly. He does this on the solicitation of some of the best citizens of the county. He is square out for universal suffrage.

—The Nashville *Banner* of Tuesday says: "While a sense of genuine gratitude is likely to secure the return of such honest Republicans as, in spite of their party affiliations, nobly stood by the people last session, we do not look for the re-election to the Senate or House of a single proscriptionist from Middle or West Tennessee."

—The New York *Tribune* is frightened, when it remembers that 100,000 Mongolians on our western coast are the thin end of a wedge which had for its base the 500,000,000 of Eastern Asia. "One hundred thousand Mongolians on the Pacific coast means so many less of our own race now and hereafter to be," and five or six millions would mean that "all but the crown of the body politic would be Mongolian." That's so; and that's one reason why we want the Mongolian in the South.

—The Louisville *Courier-Journal* says: Forney is shocked at a speaker who said at the late meeting in Memphis that "extermination is the doom of the negro." But the remark is true. Extermination is the negro's doom, extermination, not by the hand of violence, but by the competition, in labor, between intelligence and ignorance, economy and wastefulness, industry and indolence. Yes, extermination is the negro's fate, and he can sadly shake his kinky locks at Radicalism and say "thou didst it."

—The *Press and Times*, of Nashville, says we want not only peace in Tennessee, but we want progress in the development of those great material and industrial interests which are the proper accompaniments of peace. We want railroads built; mines opened; rivers improved; manufactories established; our waste lands reclaimed; in short, we want ours made what nature intended it, one of the greatest of all the States; and we well know that she can never enter upon this career, with that vigor and energy which will laugh at failure, as long as any portion of her people are soured and vexed and angered, by unnecessary political restrictions.

—The Pittsburg Locomotive Works, which began operations in 1865, are the largest establishment of the kind west of the Alleghanies. These occupy a lot of nine acres; the machine shop is 290 by 120 feet; the foundry, boiler shop and blacksmith shop, each 120 by 70. These works give employment to 300 hands, and turn out one locomotive per week.

NEWS IN BRIEF.

—The saw mill of Long, Joseph & Carter, of Indianapolis, Ind., has recently been refitted and improved at large expense, and can now cut 10,000 feet of lumber per day.

—The large distillery of Peck, Vanhorn & Co., at Cynthiana, Ky., was destroyed by fire last week, with 700 barrels of whisky. The loss on the distillery, which will be at once rebuilt, was $45,000 to $50,000.

—A Lyons manufacturer is making a magnificent silk tent for the Empress Eugenie's use during her Eastern tour. It will cost 150,000 francs: and on her return to Paris it is to be cut up and distributed among the poor.

—It may surprise many of our readers to learn that a cotton mill in Huntsville, Ala., received a medal at the Paris exposition for the excellence of its products, tickings, stripes, drills, sheetings, etc. It is known as the Bell factory.

—The Cypress Cotton Mills, at Florence, Ala., have 3000 spindles and 40 looms, and turn out yarns and heavy sheetings. The Kennedale Cotton Mills, at Tuscaloosa, make standard sheetings and shirtings, having 5000 spindles and 100 looms. The Prattville Manufacturing Company, at Prattville, make cotton yarns, sheetings and shirtings.

SPECIAL NOTICES.

Good Advice.---Let our possessions be what they may—marble palaces, broad lands, magnificent plate, or caskets of "precious stones"—they all sink in the balance against Heaven's great boon, HEALTH, and they cannot be enjoyed without it. And yet how little is it valued, and how carelessly preserved. The laws of nature cannot be violated with impunity. Night revelry, luxurious living, irregularity of meals and a disordered appetite, will gradually destroy the power and activity of the stomach. How many ladies and gentlemen eat and drink dishes at late suppers, and arise in the morning with headache, loss of appetite, feeling languid and unrefreshed. There can be no medical remedy that will turn lead into food, or poisoned drinks into nutriment, but medical science can assist nature, supply exhausted fluids, and to a great extent correct the effects of disease. In all cases such as the above, we recommend PLANTATION BITTERS. You will find them just the thing—at the same time a most delicious tonic and appetizer.

MAGNOLIA WATER.—Superior to the best imported German Cologne, and sold at half the price.

Important Fact.—We see that persons of strong constitutions, and young, suffer for days with pains of the limbs, loss of appetite and fever, who suddenly get well after a choice followed by slimy, bilious stools. The relief produced by these evacuations were the original guide to the idea and practice of purgation, and which, when enforced by Brandeth's Pills, always benefits, usually cures, and often prevents disease, especially Scarlet Fever and diseases of similar character.

J. L. Cook, publisher of the "State Banner," Bennington, Vt., says Brandeth's Pills cured him of Dyspepsia, after being afflicted with it over five years. His friends and doctors considered his recovery impossible; but six boxes of Brandeth's Pills restored his health perfectly.

A young lady of Mount Pleasant was sorely troubled with Tape-worm. All advice and medicine failed to help her. She had no rest. Thin, careworn and unhappy, she looked the picture of misery. At last she concluded to try Brandeth's Pills. In one year she took seventy-two boxes. They brought away, according to her computation, over two hundred yards of tape-worm. At length all her bad symptoms left her; she slept and ate naturally, and her health became fully restored.

AMUSEMENTS.

THE MEMPHIS BALLOON!

ONE MORE ASCENSION!

CAPT. THOMPSON announces that the first ascension of the Memphis Balloon having proved unsatisfactory to him, he is determined to make

One More Effort,

To test the merits of the Propulsive Machine, and the capacity of the Balloon for A LONG VOYAGE. For this purpose THOMPSON GOES ALONE, starting from the amphitheater, corner of Third and Adams Sts., Memphis,

ON THURSDAY, JULY 15, 1869,

AT 10 O'CLOCK A.M.

HE GOES IN THE MORNING

To avoid the oppressive heat of the latter part of the day; to avoid the risk of ascending in a storm; to enable people living in the country to come in, see the ascension, and return on the cars the same day; but chiefly to have the day before him in which to test his machine. Thompson takes on his journey a barometer and thermometer, HIS LANTERN THAT DOES NOT BURN, and a guide line to avoid the accident of descending to the earth during the night. The Balloon will be inflated entirely in the rink, and during this operation Capt. Thompson will address the audience, explaining the purposes of his voyage, the object of his invention and the use of his instruments.

Refreshments will be furnished in the Rink, and at half-past nine

A GRAND FREE LUNCH WILL BE SERVED.

Admission, 50 cents; children, half price. Pay at the gate. Gate open at 8 o'clock.

Officers recently dismissed from the New York Customhouse say it has been a common occurrence to overcharge labor items and pocket the difference. The amount of the alleged fraud is nearly a quarter of a million dollars.

An ivory tusk, six feet three inches long and twenty-two and one-fourth inches in circumference, has recently been exhumed in Montana. It was found buried in the sand twenty-two feet below the surface.

The Amador (Cal.) *Ledger* of the 3d says: On Monday last John Scandling was killed in the Oneida mine by falling down one of the shafts. At the time he was alone, and it is supposed that he came out of the drift for the purpose of getting into the bucket and coming up to dinner. He fell about thirty feet, narrowly missing two men who were at work in the bottom of the shaft where he landed. He lived about six hours, but never spoke. He was twenty-two years of age, a native of Cornwall, England, and leaves an aged mother who was dependent upon him for a support, in Michigan.

The San Francisco *Times* of the 6th inst. says: Reports from the Indian country state that the Indians are not satisfied with the Quaker agents, whom they cannot make out. These reports are not authenticated in any way, and it is quite possible that they have been put in circulation by some of the old Indian agents, who are doubtless considerably chagrined by the change in the policy of the Government, and who would be glad to cast discredit upon the new plan. The Quakers have not yet had a fair trial, and it is therefore premature to condemn them. If they prove as incapable as the agents they superseded, it will be time enough to hand over the Indian problem to the Military Department.

THE LABOR CONVENTION.

Elsewhere we publish a full report of the proceedings of the Labor Convention. It will be seen that progress has been made, but nothing definite accomplished. The Finance Committee have reported a programme for a joint-stock immigration company, with $500,000 capital, to be known as a parent society, to which auxiliary societies will report, and from which receive orders. This, together with the efforts of Mr. KOOP, must prove all that we can desire. By the time that that gentleman has piloted his first gang of laborers hither, the company will be organized and ready to co-operate with him for the second. It will take time to organize such a company. $500,000 cannot be gathered in a day, no matter what the incentive. Something more than speculation or promise must be given to stockholders. The actual results of Mr. KOOP's labors will have more weight with them than anything else. Planters and contractors will wait to hear and know from him what can be done. They will not venture when there is a possibility of their knowing by experience what they will have to pay and what kind of labor they can procure. Mr. KOOP has the field. Let him avail himself of it, and, without regard to orders, flood the market. Laborers we want, and laborers we must have.

CORRESPONDENCE.

The following correspondence will amuse our readers as a very adroit move on the part of the enemies of enfranchisement admirably foiled by the Chairman of the County Democratic Executive Committee:

MEMPHIS, July 13, 1869.

A. Woodward, Esq., Chairman Democratic Executive Committee of Shelby County:

Dear Sir: We have been appointed a committee by and on behalf of the friends of Gen. Stokes to confer and arrange with you as to the hour and place for the joint discussion between him and Gov. Senter on Saturday next, at Memphis. Will you please communicate with us personally, or by letter, on the subject? As the time is so near at hand we deem it important that the arrangements should be made by the friends of the respective candidates at once. Very respectfully,

J. M. TOMENY,
WM. HUNTER,
NAT LOWE, JR.,
M. T. RYDER,
H. S. RANKIN,
Committee.

MEMPHIS, TENN., July 13, 1869.

Messrs. J. M. Tomeny, Wm. Hunter, Capt. Nat. Lowe and others, committee:

Gentlemen: Your communication of this date, addressed to me as Chairman of the Democratic Executive Committee of Shelby county, is to hand; and in reply we beg leave to say that your proposition is respectfully declined, for the reason that the Democratic party of Tennessee has no nominee for Governor in the canvass, and, therefore, cannot presume to offer any suggestions or provide any arrangements for the reception and entertainment of the Republican candidates. Respectfully,

A. WOODWARD,
Chairman Shelby County Democratic Executive Committee.

THE CONSERVATIVE CONVENTION.

Elsewhere we publish the programme for the Conservative Convention to be held to-day. It is full and complete, and makes ample provision for the work before the gentlemen who have been elected to represent the Conservatives of Memphis and Shelby county. We hope that it will be conformed to strictly, that there will be no wrangling, no trouble of any kind, and that every delegate will labor for the good of the whole people of the State. The candidates to be selected should be men of stamina, men of intelligence, men worthy the suffrages of a long-suffering and enduring people; they should be men whose record is beyond question, and whose qualifications can pass the severest scrutiny of friend or foe. We cannot afford to lose a vote. We cannot afford to lose a man. We must have every voter, and the influence of every voice. We hope, then, that harmony will characterise the Conservative Convention to-day; that every vote cast will be given considerately, and with a view to the great end we all have at heart. The enfranchisement of the people of Tennessee is beyond any mere personal consideration, and must weigh as paramount to everything else. The men most likely to have weight with the people, the men most likely to make majorities, are the men we must have. With harmony, and a proper consideration of what is due to the people, we will have these and none others. Good men and true, reliable, just and honest, are what we want and must have. We hope the Convention will give us such and none others.

MR. KOOP AND HIS PROMISES.

We learn that the committee appointed on yesterday by the Chinese Labor Convention to confer with Mr. KOOPMANSCHAAP, of San Francisco, to ascertain all the facts in regard to the feasibility and practicability of bringing Chinese laborers to the Southern States, learned that his house in San Francisco had brought to California about 30,000 Chinese; that they had been distributed pretty well over the State, and as a general rule have performed well as laborers. The expenses of transportation from China to Memphis will be about $100. Contracts are made in China, and the performance on the part of the Chinese is sometimes guaranteed by the Emperor. This makes the advances entirely safe. The amount per day required to feed a Chinese laborer is about 2 pounds of rice, ½ pound of meat, ¼ pound of salt fish, with a small quantity of tea and vegetables. The price of labor is a matter of contract in California. It varies from eight to twelve dollars per month, dependent upon the kind of work, and the demand for the labor. Mr. KOOP. thinks a sufficient amount of labor can be had to supply the demand in the South, and promises he will leave for China about the 1st of September. On the return of the steamer, which will be about the 10th of November, he will be able to give full and specific information in regard to the whole question. He has very satisfactory letters from the Governor of California, the President of the Central Pacific Railroad, and other gentlemen of California.

THE crisis in France between the legislative power and the Emperor continues to intensify; and the denouement may be looked for at an early moment. A resignation of the Chief Minister is demanded, and we shall see whether it will be enforced. In that event parliamentary power will be advanced, and perhaps the status of England—with a limited monarchy and constitutional Government—will be reached. The issue is enlarged liberty against absolutism. One or the other seems the necessary result of the struggle now going on.

PATENT PUMP.

A. BALDING'S
DOUBLE ACTING SUBMERGED
FORCE PUMP.

PATENTED AUGUST 8, 1865.

MANY thousand of them have been tested during the past four years, and have proved a perfect success, as thousands of certificates could be produced; but I deem it unnecessary, as the Pump will show for itself, and prove all its qualities on examination.
It is a Pump which is ultimately destined to supercede all other Pumps now in use, for the simple fact—first, the cylinder is made of solid flint glass, and it undoubtedly will last one hundred years, and still be good as ever. Second, it will never give any bad taste to the water, or rust it. Third, it will never wear out, so as to put the working part out of order. Fourth, the Plunger working in glass, it will last as long as five in iron or wood. Fifth, the valves are made of glass, and are so placed that it is impossible for them to get out of order. Sixth, the conducting pipe is manufactured of wrought iron, galvanized inside and out, making it perfectly free from rust. Seventh, no water stands in the pipe to get warm in summer or freeze in winter, and it requires no priming to start it. Eighth, it is the best hand fire engine ever invented. It will force the water from any common well or cistern to the top of the highest dwelling, at the rate of twenty gallons per minute. Ninth, its whole construction is so simple and complete that renders it less liable to get out of order than any pump yet invented, and makes it the cheapest on the continent. When all its qualities are fully understood no one will be without it. It will save its cost in insurance and many times save valuable property.
Having established a factory in the city of Memphis, Tenn., for the manufactory of these Pumps, we are now prepared to furnish, at wholesale and retail, to all parties engaged, or wishing to engage in the business.

Prices for this Pump, Complete:

For Pump 16 feet long, $1 50 per foot ... $2[illegible] 0
" 18 " " 1 50 " " ... 27 00
" 20 " " 1 50 " " ... 30 00
and fifty cents per foot for every additional foot.

☞ Agents wanted for this Pump, either to buy County rights and sell the Pumps, on which a liberal discount will be given to the wholesale trade, and no charge for the right of Territory.
☞ All orders for this Pump must be addressed to

OFFICE OF THE DAILY APPEAL, MEMPHIS, July 14, 1869.

FINANCE.

The money market to-day was quiet, and rates of exchange about as they were yesterday, though there is some tendency to an advance on New York bills. The demand is light.

Stocks and Bonds are dull and nominal.

City Scrip is very quiet. There is little offering, and dealers are at variance in their bids.

County Warrants are dull and prices are irregular. 65c would be paid for small lots, but we do not know that any could be found at that figure.

There is no change in Police Scrip.

Only small sales of gold are reported with a good shipping demand:

A meeting took place at the Overton yesterday between R. C. Brinkley, Esq., and Gov. Clayton, in reference to the bonds voted to the Little Rock Railroad by the Legislature of Arkansas, amounting to $125,000, which bonds have been withheld up to this time. The interview resulted in Gov. Clayton promising that the bonds should be immediately turned over to Mr. Brinkley.

We publish the following important information for the benefit of our business men and readers generally. Daily we hear of Government detectives seizing property because the law has not been complied with. Grocers, Druggists and dealers generally would do well to pay particular attention to the matter. For their information we will state that sardines, anchovies, prepared mustard, syrups in bottles, jams, jellies, meat and fish sauces of different kinds, colognes, perfumes, cosmetics, and all articles named in "Schedule C., Stamp Duties," as amended by the act of March, 1867, are liable to stamp duties, whether made in the United States or imported. The stamp must be fixed on each article offered or exposed for sale. An article is offered or exposed for sale when placed on the shelves, counter or in the show case of the dealer. Parties selling imported articles of the kind mentioned, must affix and cancel appropriate stamps, such articles being subject to the like stamp tax with domestic manufactures. Where the importer sells in the original packages—i. e.—those furnished by the original manufacturer or producer, and not the package which the retailer sells to a customer, he need not break open such packages and stamp such article, but may sell the same in the original package, case or box, and the dealer who breaks a package to sell in single article must affix and cancel stamps. The absence of stamps in such case is *prima facie* evidence of fraud. Every dealer is regarded as a manufacturer, and is liable to all the penalties of such for selling, removing, exposing or offering for sale such articles without proper stamps.

The penalty is $50 for each offense, one-half to the informer. Canned fruits, vegetables, oysters, dry mustard, olives, capers, pickles, cooking essences and extracts are exempt from tax. But all essences, extracts, toilet waters, cosmetics, bay rum, Florida water, hair oils, pomades, tooth washes, powders and dentifrices of all kinds, are subject to stamp duty, as also every box, bottle, phial or other inclosures, containing any pills, powders, tinctures, troches, lozenges, cordials, bitters, anodynes, tonics, plasters, linaments, salves, ointments, paste, drops, waters, spirits, oils or any proprietary medicinal preparations whatever.

Dealers are notified that these duties will be strictly enforced, as revenue officers are giving especial attention to these matters, and may save themselves much trouble by complying at once with the law. All who want to know what the law requires of them can send to the Commissioner of Internal Revenue at Washington, and get a copy of the pamphlet containing the law and regulations concerning stamp duties under Schedules B. and C.

The press generally would serve a large number of people by printing this article.

COTTON.

The Liverpool market at the opening to-day was firmer. Uplands 12⅝@12¾d; Orleans 13@13⅛d. It was unchanged at noon, and closed firmer with prices unchanged. Sales 10,000 bales. Shipments from Bombay since last report to 9th, 21,000 bales.

The New York market closed with a fair demand. Low Middlings 33¼c; Middlings 34¼c; Good Middlings 35¼c. Sales to spinners 1485 bales. To speculators 2000 bales. Also 1300 bales for future delivery, including Low Middlings, August 31c; September 31c; October 29c; December 26¼; January 26c.

The speculators in this market were looking around to pick up a bargain, but holders generally were firm, and in some instances asked higher rates—½c being in a few instances obtained. Prices in this market now are nearly as high as in New York, and without a still further advance buyers will not save themselves. Sales amounted to about 60 bales, mostly on Boston account. TRADE.

This has been another hot day—almost too much so to attend to ordinary outdoor business, and trade was therefore not active, so far as appearances are concerned. Our streets are nearly deserted during the middle of the day, and a stranger passing through our city about noon would think that Memphis was as dull as Louisville or St. Louis. There is considerable complaint about prices in our market, the merchant claiming that nearly all goods are sold at less than they can be duplicated for, but small profits or actual loss is not confined to this section. In reference to this question the New York *Commercial List* says: "Merchants and business men in nearly all departments of trade report very slender margins on current transactions, and in some cases where the sales are up to the full average, there is absolutely no profit after paying current expenses. Competition is so sharp, and the future course of money, gold and commercial values so uncertain, however, that business men prefer to turn their stocks over frequently, even at a small profit, rather than carry them at a heavy cost, and run the risk of losses through shrinkage in the end. As to the probable volume of the fall trade opinions are quite diverse, and business men are graduating their operations accordingly. Those who believe that the crops furnish the true criterion of the consumptive requirements of the country are disposed to take a hopeful view, while others, who think that popular economy, distrust and prudential considerations will continue to sway the public mind, to the prejudice of business interests, are not inclined to relax the cautious policy they have so long observed. The movements of the currency and the condition of the money market will naturally exercise a powerful influence, for good or for evil, upon the state of trade during the next few months. All that can be positively known as to the shiftings of the currency is that it is an element of frequently recurring disturbance, which, during the past season, and indeed for several seasons, has operated unfavorably to the interests of nearly all classes save stock and gold speculators; and while it remains in its present irredeemable form there would seem to be no reasonable ground for expecting legitimate business, as a whole, to realize better profits than have been realized during the first half of the year."

There is a shipping demand for choice green Apples, but prices are low, and farmers do not bring much to market. We quote at 1 to $2 per bbl as to condition. Peaches and Pears come in slowly, and prices are irregular.

Choice Western Butter is in some demand, and prices range from 28 to 30c as to quality.

The market for Provisions remains firm, and the demand is steady. Mess Pork is firm at $4 50 per bbl. Clear bacon sides 18¾ to 19; Shoulders, 14¾@15. Country meats are about ½c lower. Plain Sugar Cured Hams, 19c; Sugar Cured Canvassed, 20@21c. Lard, in tierces, 19½@20c; kegs, 20½@21c; caddies, 22@22½c.

We have no change to note in Coffee. The market is steady. Ordinary to prime Rio 20 to 25c; Java 35 to 38c.

The Produce market is largely supplied with all kinds of garden truck. Potatoes are dull at 1 to $1 50 per bbl, loose. Onions 4 to $4 50 per barrel. Sweet Potatoes, in a retail way 1 25 to $1 75 per bushel.

The demand for Feed is not large, and prices are generally weak. Corn on levee 85 to 90c. Oats 82 to 85c. Bran $22 per ton. Hay 27 to $28 per ton.

The local mills are selling kilndried at 4 25 to $4 50 per bbl. while fresh is held at 4 to $4 10 per bbl in lots.

Flour is firm and supply rather light. We quote Superfine at $5 50 to $6; X, 6 25 to $7; XX, 7 25 to $8; XXX 8 50 to $9, and fancy brands 9 50 to $11.

The stock of Eggs on hand is equal to all requirements, and prices are steady at 18 to 20c.

In Hides there is no change. All kinds are dull. Green 9c; Salt 10; Dry Salt, 17c; Dry Flint, 20c.

Cape and Alabama Lime held at 1 60 to $1 80 per barrel. Utica $1 75. Cement 2 75 to $3.

We note no change in Sugar and Molasses. Louisiana yellow Sugars 11 to 15c; New Orleans Y. C. 15½ to 16c; New Orleans W. C. 16½ to 17c; soft white 16½ to 17c; hard white 17 to 17¾c. Molasses range from 50 to 90c, as to quality.

Poultry is in fair demand. Young Chickens $3 00 to $4 50; old $5 to $6.

In Live Stock we have no change to note. The only demand is from Butchers. Beeves range from 3½ to 7c gross.

In Salt there is no change. Large dairy (seven bushel barrels) $4 50; small dairy (five bushel barrels) $3 50; large common (seven bushel bbls.) $3 30 to 3 50; small common (5 bushel bbls.) $2 50 to 2 75.

There is a good demand for Tobacco, and prices are steady.

Wheat is in demand at the mills at $1 10 to $1 50 per bushel, as to quality.

The Whisky market is steady. Highwines $1. Proof Whisky 1 10 to $1 25 Common 70 to 85c. Imitation Bourbon 1 20 to 1 30.

COMMERCIAL, FINANCIAL AND CROP ITEMS.

—The revenue of the Dominion of Canada for June was $1,030,000, and the expenditures, $598,437.

—A Chicago dispatch says the cereal crop of Illinois will fall below the average. We don't believe it. The crop will be greatly above the average.

—The government will purchase three millions of bonds on the 14th and 15th each, the same on the 28th, and one million on the 29th—$11,000,000 in all.

—The cotton trade is unusually depressed in England, and several firms in Manchester have temporarily suspended operations, but prices continue to range high.

—Whiskey to the amount of 1,157,366 gallons, paying a tax of $578,683 25, was manufactured in the Fifth Kentucky Revenue district, since July 20, 1868, to July 1, 1869.

—Radical rule in North Carolina has increased the State debt twenty millions of dollars, and the new issue of bonds providing for this obligation are selling in the market for less than fifty cents on the dollar.

SPECIAL NOTICE.

Conclusive Evidence in Favor of Hostetter's Stomach Bitters.—W. H. Reese, a leading druggist in Monticello, Ill., in a letter of June 6, 1868, writes to this effect: "Having sold Hostetter's Bitters for the past four years, I cannot but speak of the article as being the best tonic and appetizer extant. During the ague season of 1865-6, I could not keep a sufficient stock on hand to supply my customers. In fact, your Bitters was as staple as quinine. I learn that physicians prescribe it all over the western country. Indeed, a great many families think they are not safe without your invaluable tonic."

J. K. Witherspoon, Esq., a magistrate of Kershaw county, S. C., states, under date April 13, 1868, that he has used the Bitters constantly in his own family for the previous two years. He first tried the preparation when suffering from exhaustion produced by a severe attack of fever. Before the first bottle was finished, he experienced a remarkable change for the better. He had tried brandy at the outset, but found that did him more harm than good. In one month from the time he commenced using the Bitters his health, strength and appetite were restored. He had recommended the article to others in like circumstances, and never known it to fail, and had found it a perfect specific for chills and fever.

Mr. Samuel Young, of Clarion, Pa., under date April 6, 1868, certifies that he was completely cured of "one of the most distressing attacks of dyspepsia that ever afflicted any mortal," by three bottles of the Bitters, after "various other remedies had proved powerless." Restored to perfect health, he thanks "that excellent preparation for the result."

Dr. G. M. Spencer, of Brush Creek, Jerry county, Ala., writing the 2d Feb. 8, 1868, says: "I have used your Stomach Bitters for several years in my practice, and find them superior to most of the Bitters now prescribed by the profession generally."

Batchelor's Hair Dye.—This splendid Hair Dye is the best in the world; the only true and perfect Dye; harmless, reliable, instantaneous; no disappointment; no ridiculous tints; remedies the ill effects of bad Dyes; invigorates and leaves the Hair soft and beautiful, black or brown. It gives a pure Blooming Complexion and restores Youth and Beauty.

Its effects are gradual, natural and perfect.

It removes, Redness, Blotches and Pimples, cures, Tan, Sunburn and Freckles, and makes a lady of thirty appear but twenty.

The Magnolia Balm makes the Skin Smooth and Pearly; the Eye bright and clear; the Cheek glow with the Bloom of Youth, and imparts a fresh, plump appearance to the Countenance. No lady need complain of her complexion when 75 cents will purchase this delightful article.

The best thing to dress the Hair with is Lyon's Kathairon. je11

"A Word to Horsemen."—DR. TOBIAS' CELEBRATED VENETIAN HORSE LINIMENT has been tested by the first horsemen in this country, and proved to be superior to any other. The late Hiram Woodruff, of "trotting fame," was never without a bottle in his stable. It is also used by Col. Bush, of the Jerome Park Course, at Fordham, N. Y., who has over twenty running horses under his care, among which rank some of the finest stock in America. It is warranted to cure Lameness, Sprains, Scratches, Bruises, Galls, Cuts, Wind Galls, Colic, Sore Throat, Nail in the Foot and Over Heating, when used according to the directions. All who own or employ horses are assured that this Liniment will do all, if not more, in curing the above named complaints. No horse need die of Colic, if, when first taken, the Liniment is used according to the directions. Always have a bottle in your stable.

Price, in pint bottles, one dollar. The genuine is signed S. I. Tobias on the outside wrapper. For sale by Druggists, Saddlers and Storekeepers throughout the United States. Depot, 10 Park Place, New York.

MISCELLANEOUS.

The Alexandria, Washington and Georgetown Railroad will soon be completed.

Several ladies and gentlemen of Memphis leave to-day and to-morrow to be present at the hop to be given on Friday evening by our friends Stiffey & Aydlett at the celebrated Iuka Springs Hotel.

A large party of our citizens leave on Monday for the Mammoth Cave. Special rates have been adopted, and those who want to join should call at once on Jimmy Speed or Asa Hill and record their names.

The estimated earnings of the Louisville and Nashville Railroad are, freight $89,356 82; passenger $80,454 15; mail, express and miscellaneous $10,000; total $186,819 97. An increase of $25,460 25 over the corresponding month of last year.

The first spire of the Southern Central Railroad, connecting Oswego with Auburn, was driven Saturday, with imposing ceremonies. The spike, which is of solid silver, was driven into a polished oak tie, by the President of the Village, W. J. Jones.

The Montgomery *Advertiser* of the 10th inst. learns from the highest authority the important and gratifying fact that the iron for the whole line of the North and South Railroad, from Montgomery to Decatur, has been purchased, and that its delivery will commence the first of August.

Senator Conklin has telegraphed to the Secretary of the Treasury that both the Central and Union Pacific railroads have been, in his opinion, honestly constructed, and, considering the various obstacles which they were compelled to surmount, are, comparatively speaking, in better order than the average of Eastern roads. He adds: "As to safety and comfort of travel, there can be no question."

The Directors of the Tennessee and Pacific Railroad held a meeting in Nashville on Monday, and all were pleased with the progress of the work between Nashville and Lebanon. An order was made directing the engineer to send out two surveying parties between Lebanon and Knoxville—one party by way of Carthage, in Smith county; the other to take the Southern route, through DeKalb, White and Cumberland counties. The parties are to survey to the top of Cumberland mountain.

The Louisville *Courier-Journal* says one of Bray's patent refrigerator cars, built at the shops of the New Orleans and Jackson Railroad Company, arrived here on Saturday. It contained a lot of fruits and vegetables, all of which were in splendid condition. It is claimed that fruits, meat, and other perishable articles can be preserved any length of time by this method. The merits of the invention will be thoroughly tested, and if the tests are satisfactory the Louisville and New Orleans Express freight line will run a number of these cars between the city and New Orleans.

Most travelers over the Pacific road record one of disappointment in passing the Rocky Mountains. The mind in the distance naturally conceives of slowly ascending an abrupt pinnacle and then passing quietly a sharp, rocky gorge, descending upon a plain on the Pacific slope, very much like traveling over the summit of some of the rocky hills and mountains of Maine. But so gradual is the ascent and so gentle the descent, that the traveler needs to be told when he has reached the summit, both of the Rocky and Sierra Mountains. The highest elevation reached is at Sherman, on the Union Pacific road, 8424 feet above the level of the sea, at a point 549 miles from Omaha. The highest summit on the Central Pacific road is some thousand feet less, 105 miles from Sacramento.

NOTICE.

To the Merchants of Memphis and Merchants and Planters on White River.

I HAVE this day sold the White River Mail Contract, with all my interest in the White river trade, to the Memphis and Arkansas River Packet Company, of which Major John D. Adams is President. To the old citizens of Memphis and on White river, by whom Maj. Adams has been so long and favorably known, I need say nothing, as he is no stranger to them, having successfully carried their mails and done their river business for them for many years before the war. To the new settlers I take pleasure in recommending the new line as reliable in every particular, and ask for them a cordial and hearty support.
June 10, 1869. JOHN B. DAVIS.

IN taking charge of the Memphis and White River Mail Line, I can only say that we will endeavor to conduct the business in such a manner that it will be satisfactory to the merchants and planters on our route, and to the traveling public.

For the present we will run two boats—leaving Memphis every Tuesday and Saturday; but as soon as the business will justify it, will put on a boat on Thursday, making a tri-weekly line. I will here say to the Memphis merchants, that it will be my aim to give them as low a rate of freight as it is possible to do without injury or loss to the Company which I represent, and would ask of them a hearty co-operation.
JOHN D. ADAMS.

EXTERNAL APPLICATION

No internal adjuvants being required in any case, only to regulate the bowels, if constipated, or in Diarrhea or Dysentery.

The PILES, while astonishingly prevalent in their various forms amongst all classes of both sexes, are, at the same time, the most distressing, frequently dangerous, and hitherto most difficult of cure.

Persons who suffer any length of time with the Piles generally try everything they can learn of purporting to cure the disease, yet realize no permanent advantage therefrom. They have been told professionally, perhaps, there was "no permanent cure for Piles," and consequently have despaired of any future cessation from pain and suffering.

To all such a SPECIFIC is offered for their relief. The

BUCKEYE SALVE

Is a strictly scientific combination of well known remedial agents, and the proprietors have no hesitation in saying the BUCKEYE SALVE is the

ONLY INFALLIBLE SPECIFIC

Ever discovered for that disease, and which cures by outward application only, and that in time to come, as in the past, it will stand the test of trial without a failure, to perform all the proprietors claim for it, if the directions are attended to.

A large number of gentlemen throughout the country of high character and influence have voluntarily attested to its efficacy in their own cases, not from hearsay, and whose certificates may be seen by reference to the publications.

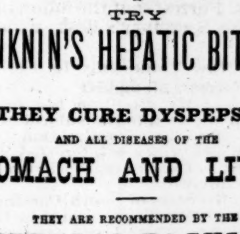

The proprietors will forward to any address one bottle, postpaid, on receipt of the retail price, One Dollar per bottle.

CHINESE LABOR CONVENTION

Second Day's Proceedings---Reports of Committees.

The Convention assembled at 10 o'clock. The reading of the minutes was dispensed with.

A printed circular was taken from the Secretary's table, from the Louisiana Commissioners of Immigration, which was ordered to be read. A motion to reconsider the vote so ordering was made, but voted down, and Gen. Marcus J. Wright, reading secretary, proceeded to read the document. Its extreme length forbids its reproduction in our columns. During the reading Mr. Cherry rose to a point of order. The Chair decided that the reading was entirely in order, inasmuch as the document was ordered to be read by vote of the Convention. Gen. Wright therefore continued and finished the communication.

Judge Sutton announced that the Louisiana delegation, which he spoke of expecting yesterday, (Tuesday), were then present. He moved that they be apportioned to the various committees, and that their names be presented to the Secretary and enrolled. Adopted, and the apportionment made accordingly.

Judge Sutton further requested that they be furnished with certificates of attendance, in order that they might collect the portion of their expenses allowed them by the State of Louisiana.

The Chair, in reply, said that blank certificates were in readiness at the Secretary's desk, and would be issued to all who applied for them.

The Chair suggested that if there were any States represented in the Convention, but not apportioned to the committees, he hoped the delegates would make the fact known and the apportionment would be made.

Col. John Martin, of Kentucky, said that Kentucky had not been represented on the committees raised the previous day, and he would move that the Hon. Lawrence Trumbull be added to the Committee on Chinese Immigration and Maj. D. G. Green to the Committee on General Immigration.

Motion adopted, and the addition made.

The first regular business in order is the

REPORT OF STANDING COMMITTEES.

Gen. Pillow, Chairman of the Finance Committee, reported as follows:

MEMPHIS, TENN., July 14, 1869.

To the President of the Memphis Immigration Labor Convention, now in session:

The Committee to whom was referred the duty of reporting some feasible plan for meeting the wants of the future, in connection with the supply of labor, have had that subject under consideration, and direct the undersigned to report for the consideration of the Convention, that in their judgment the only feasible plan is to organize a stock company, with a capital of one million of dollars—subject to be increased, if necessary, to two millions. It is proposed, at present, to organize this company under private articles of association; but to procure, at the earliest practicable moment, a law of the State legalizing the company as a corporation.

That no time be lost, your Committee recommend the opening of stock books at once, and in this Convention; and that all capitalists and planters, friendly to the objects of this Convention, be invited to take stock and join this organization.

They propose that the books for subscription of stock be kept open until the 15th day of August next, upon which day the stockholders shall meet in the hall for the purpose of organizing the company. This organization may take place when the sum of one hundred thousand dollars is subscribed.

*It is proposed that each share shall be one hundred dollars, and shall entitle the owner to one vote in organization, and in all things affecting the action of the company, and that each stockholder shall have a vote for each share he may subscribe and pay in, as provided by the calls of the President and Directors of the company, and at the time of the organization.

In the election of a Board of Directors, the payment of ten per cent. on the dollar of all the stock subscribed shall be necessary to entitle the shareholder to vote in the election of the Board of Directors—of whom it is proposed to elect seven.

When so elected, the Board of Directors shall elect one of their number President. They shall also elect a Secretary and Treasurer of the company, each of whom shall be a stockholder—owning not less than ten shares.

When the company is thus organized it shall have, by its Board of Directors, the power to call in the stock subscribed, provided it shall not call in more at one time than ten per cent.; provided, also, that it shall not call oftener than once in each thirty days. All stock not paid in when called for shall be forfeited to the company. The Board of Directors shall adopt all necessary means and measures to further the objects of the organization—which is to bring into the country as many immigrant laborers as possible, in the shortest time.

In supplying planters with laborers, the President and Directors shall give a preference to stockholders over those who are not; and in supplying stockholders with laborers, all other matters being equal, a preference shall be given to those who first apply for them to the Board of Directors, by written application, filed with the Secretary of the Company. But, inasmuch as the successful work of the organization will require the *active use* of its capital, *cash* will be required in all cases, from those with whom laborers are placed.

Your Committee recommend the appointment at once of a special committee, whose duty it shall be to prepare and report to this Convention articles of association for the government of this organization—fixing the rights and responsibilities of its members, and defining and limiting the power of its Board of Directors, so that those who subscribe stock in the Company, may know these rights and responsibilities.

These suggestions are considered by your Committee as covering the main features necessary to be provided for this organization, and I am directed to report them as the unanimous judgment of your Committee, for the consideration of the Convention, to whom they are respectfully submitted. GID. J. PILLOW, Chairman Finance Committee.

Gen. Pillow, after reading the report, said that he did not intend to occupy the time of the Convention with speeches; they were assembled for work. This report, he said, was a mere skeleton to which the flesh and muscles would be added by the articles of association. It simply embraces the thoughts of the committee, and when put in shape was, so to speak, the motive power of the association. He suggested that a company be formed with a capital of half a million, to commence with. This company is to place reliable agents, one at San Francisco and the other at New York; these agents shall bring into competition the companies engaged in the transportation of immigrants from Europe, and the Pacific Railroad. If we can command the capital to pay all the charges of the immigrants from their homes to that point, and thence to the points where they are wanted, they will be able to supply the planters of the five States bordering on the Mississippi river with all the labor that they want at 33 per cent. less than it could be got by any individual efforts or enterprise. In recommending the inauguration of this system of labor, the committee are moved by no hostility to our former servants; and the speaker said that he could not conceive that this sentiment had anything to do with the movement. At present we produce but half a crop, at the very fartherest, say 2,500,000 bales, and to do so we employ about two-thirds of the available negro labor. Having been a planter, he spoke from experience, in making these statements. What do they indicate? Plainly that just one half of the soil is in cultivation that was so before the war, and that because the labor was not adequate to the demands. The negroes have taken to other vocations also, and have left the corn and cotton fields. They have usurped the place of the white man on the river almost entirely, and have supplanted the Irish, Dutch and Germans on the steamboats. Our cities are full of them—.

Here Judge Sutton interrupted the speaker, and rose to a point of order. He contended there was no question before the house, and consequently that Gen. Pillow's remarks were out of order. The report of the Standing Committee is not the subject of debate. Besides, there had been two gentlemen added to the committee since the report was made, and he therefore hoped that the report would be recommitted to the committee.

Judge Clapp hoped that the gentleman, Gen. Pillow, would be allowed to proceed. We did not meet to be tied down to parliamentary rules and quibbles, but we met to acquire information on certain subjects, and to put this information to use. We were receiving interesting and valuable information when the gentleman was interrupted. He hoped the Chair would allow him to proceed.

The Chair stated as to the point of order, he had no hesitation whatever in deciding that the gentleman from Tennessee (Gen. Pillow) was entirely in order, and that the gentleman from Louisiana, by his interruption, was out of order. [Applause.] The gentleman from Tennessee would therefore proceed. [Applause.]

Gen. Pillow resumed his remarks, and said that he did not intend to take up the time of the Convention with useless speeches, but merely to give his experience as a planter, and to show that the present culture of the staple had reached its maximum with the present labor, and also to show what had become of the labor. More labor has become a necessity with us, and involves the very existence of our country; without it Memphis will dry up, our commerce will dry up, and the earth, our great mother, will cease to yield her wealth.

The General went on, and spoke of the proposed company and showed that it would be a money making affair, besides performing a great service to the planting interests of the country. In regard to the proposition of the gentleman from Louisiana, to refer back the report to the committee, he would make no motion to adopt, and would leave the report entirely with the house, to do with it just as they pleased.

Mr. Labouve, of Mississippi, moved to adopt.

Mr. Franklin moved to recommit, on the ground that the newly appointed members of the committee had had no hand in framing the report.

Mr. Labouve said that the Convention had no idea when it acceded to the request of the gentleman from Louisiana to appoint the two gentlemen on the committee of retarding its own action. The act was merely one of courtesy, and not of right.

Col. Martin, of Kentucky, insisted that it was a matter of right and not of courtesy. As to retarding the Convention, the delay of a day or two was a small matter.

Mr. Clapp moved to take the sense of the meeting as to how long this body expected to remain in session. As for himself, and others from Memphis, he knew that it made but little difference, and he was sure that they of Memphis were glad to meet and entertain those from abroad, but the latter were anxious to be getting home.

Mr. Franklin withdrew his motion.

Mr. Peeples, of Tennessee, moved to postpone action until 12 o'clock m., by which time the newly chosen members of the committee can have conferred with their colleagues. Adopted.

TRANSPORTATION.

H. C. Bulkley, of the Committee on Transportation, reported as follows:

MEMPHIS, TENN., July 13, 1869.

To the President and members of the Convention:

GENTLEMEN: Your Committee on Transportation have carefully considered the subject, and respectfully beg leave to report that the cost of transportation from San Francisco, or Sacramento, via the Central and Union Pacific and Omaha and St. Louis Railroads, and Memphis and St. Louis Packet Co., to Memphis, Tenn., will be as follows:

In lots of 100 to 500, $55 each, in currency.
Above 500, $50 " " "

The above figures are given as being rates at which contracts can be made.

From Memphis to any point in the interior of Tennessee, Mississippi, Alabama, Georgia and South Carolina, upon the lines of the various railroads, the rate will be one cent per mile.

From Memphis to Vicksburg, and intermediate points on the Mississippi river, the cost will be $1 per head.

From Memphis to Des Arc, Ark., and points below Des Arc, on White river, $2 00 per head. For points above Des Arc to Jacksonport, Ark., $2 50 per head.

From Memphis to Pine Bluff, Ark., and points below on Arkansas river, $2 00 per head. For points above Pine Bluff to Little Rock, Ark., $2 50 per head.

Your committee would also respectfully beg leave to report, that communications were sent on the 30th of June to the Pacific Mail Steamship Company, as to the probable cost of transportation from San Francisco to any of the Gulf or Atlantic ports, but no reply has been received thereto.

We are informed from an indirect source that the probable cost of transportation from Hong Kong, to any Atlantic port in the United States, will be by sail $100 to $125 *in gold*. The time occupied in making the trip, is from 100 to 150 days, and there are other expenses incident to this route, over and above the cost of transportation. From New York, by steamer, to Norfolk, the rate would be $2 00 per head, and the railroad fare, to points interior, is one cent per mile.

The time occupied in making the trip from Hong Kong to Memphis, via San Francisco, steamer and rail, would be 35 days. Sail vessel and rail 60 days.

In reference to the communication from the President of the Mediterranean, and Oriental Steam Navigation Company of New York, referred to this Committee for action, the Committee respectfully beg leave to report that after a careful consideration of its subject matter, they are unable to find anything upon which to base definite action beyond the appointment of a Committee to confer with the Company as asked for in said communication.

Very respectfully,
H. D. BULKLEY, Chm.

[Since the adoption of the above report, in answer to telegrams sent by Maj. Wicks, President of the Memphis and Charleston Railroad, to Oliver Ames, Esq., President of the Union Pacific Railroad, and by J. Meredith Davies, General Passenger Agent, to Mr. Snyder, General Superintendent Union Pacific Railroad, the following figures are made for the transportation of Chinese from California to Memphis: $44 70 in lots of 500 and upwards.

Respectfully,
H. D. BULKLEY, Chm.

At the close of the reading of this report, Gen. Forrest sent the following letter to the Secretary's desk, which was read.

NEW YORK, July 10, 1869.

Gen. N. B. Forrest, Memphis:

My Dear Sir: My attention has only this day been directed to the subject of a Convention for the Immigration of Chinese, in which you are interested, by Col. McGivern. This is a matter in which I feel a deep interest.

I am from the State of South Carolina, but for several years have resided in the Sandwich Islands, where I own extensive lands, and employ Chinese and Japanese laborers.

I hold a commission from His Majesty, the King of the Sandwich Islands, which authorizes me to proceed to Asia to procure laborers and colonists for the islands. I spent many years in the East, especially in the Malay Archipelago. Whilst there, and in contiguous countries, I observed the working and development of Chinese colonization. I have been making a practical test of my experience in the Sandwich Islands. I have employed different races and tribes of the Chinese Empire. I have employed them to plant sugar, cotton and rice; also to herd stock, as shepherds, as shearers, as boatmen, carpenters, butchers, cooks, and as house servants. It is all important to select them in China in reference to the work required of them. There are striking differences between races like Hakas and Punkis, as between English and Irish. Some take readily to the plow and hoe. Some have great aptitude to manage stock. Then you have shopkeeping and artisan races.

In consequence of no attention being paid to selection, there has been great disappointment and mischief in Peru, Cuba, and other countries. We suffered at first in the Islands for want of thorough, practical knowledge. It is an easy matter to order through a mercantile house in San Francisco or Hong Kong a cargo of coolies; but when they arrive, they may bitterly disappoint you. It needs an experienced personal selection to insure the obtaining of young, healthy and satisfactory Chinese laborers. I would be happy to assist you in this matter, in connection with my other duties, being anxious to contribute to the welfare of my old beloved home; and, knowing how important a judicious Chinese immigration would be in the development and the restoration of the South.

I have had much to do with Japanese, and they are a very desirable class of laborers. If not quite so energetic as Chinese, they are more docile, and would become desirable colonists and permanent laborers.

We have imported the coolies into the Islands at a cost of $70, and contracted with them for five years at $4 per month, with board, lodging and medical attendance free. I could now import them at much less cost. I think I could deliver coolies at San Francisco for $60 a head; and I have been talking with Pacific Railroad agents who think they will be enabled to issue emigrant tickets for $75. If shipped round the Horn, coolies could be delivered at less cost than by overland, but it would be much more desirable to pay a little more and avoid the long voyage. However, you would have to consider the possibility of desertions by the overland route. At the same time I must say that all Chinese I have employed stick faithfully to their contracts. You can work fabulous results with Chinese immigration. The mighty reservoir of labor is ready to flow into your rich lands.

I am sorry that some important business will prevent my attendance at the convention on the 13th inst. I expect to return overland about the 1st of August to go by steamer to China and Japan. Should you, General, and the gentlemen interested with you in the scheme of Chinese immigration wish to communicate further with me, I could probably make it convenient to call at Memphis some time between the 20th and 24th inst. I have been some time in Washington, occupied in reference to a Reciprocity Treaty with the islands, and return there in a few days, and then proceed on to South Carolina to join members of my family who return with me to the islands.

A letter addressed to me, care of S. F. U. Odeji, Esq., His Hawaiian Majesty's Consul, 24 Beaver street, New York, will receive prompt attention from

Yours, very respectfully,
WALTER M. GIBSON,
H. H. M. Com. Emigration.

Gen. Forrest, after the reading of the letter, said that his object in producing this letter and having it brought before the Convention was to show the propriety of getting labor in China, the cost, etc. He moved that it be received and referred to the Committee on Chinese Immigration. Adopted and the reference made.

Mr. Franklin moved to adopt the report of the Committee on Transportation. Adopted.

CHINESE IMMIGRATION.

The Hon. Mr. Clapp, of the Committee on Chinese Immigration, said he had a report to make, or rather an apology for not making one. He then read a sort of report setting forth the fact that the committee were, in the absence of Mr. Koopmanschaap, without reliable data to go upon, and that the time allotted them had been so limited that it was impossible for the committee to make a report that would do them any credit or convey any information to the Convention. It concluded with a suggestion that the matter be recommitted to the committee, increased by four others, or to a new committee, who should make a report for publication after the Convention adjourns.

A member moved that the report be referred back to the Committee and they be given another day in which to report.

Mr. Clapp said he did not think that the Committee would be justified in undertaking to report within a day, and he hoped that the gentlemen would excuse them.

Col. Martin, of Kentucky, moved that the Committee be made permanent, and they be given more time in which to report.

Col. Flournoy, of Arkansas, wished to know if the Convention was to be perpetual. He would speak for the planting interest, and say that their crops needed their attention, and they must go back home. They could not afford to wait much longer. Chinese immigration is what brought them to the Convention. They came on that account solely, and the report of this Committee is the one which they wished most to hear. He moved that the Committee be allowed another day in which to prepare a report.

Judge Sutton interrupted the debate to say that the Finance Committee were ready to report.

The Chair declared the gentleman from Louisiana (Judge Sutton) out of order, as the subject now under consideration was the report of the Committee on Chinese Immigration.

Mr. Peeples said that he would be glad to see the gentlemen from Arkansas accommodated in this matter. It was due to them, as they were pioneers in the cause. The first association formed for the encouragement of Chinese labor was held at Pine Bluff. He thought that the Committee might make out a report and have it in readiness the next day, embodying all the facts immediately at hand. The distinguished stranger whom they were expecting (Mr. Koopmanschaap) would be able to give them all necessary information this evening; they could make a further and more elaborate report at some future time.

Mr. Clapp again appealed to the Convention not to order a report within so short a time. The committee were exhausted after the days work of the Convention, and had no opportunity to do anything in the morning. Alluding to the report of the Finance Committee, he thought that it was running in the same groove as the required report would be. If he were required to make a report embodying the best means of securing Chinese immigration, he would have suggested that or something similar. Individual exertion and enterprise were worthless. He had a friend who had undertaken to import some German laborers, and after spending some $1500 he secured two laborers, or a man and his wife. He would suggest that the parent organization be here, and have reliable and competent agencies in different places.

Mr. Spears, of Mississippi, arose at this stage of the argument, and said that on the previous day, when the majority of the committee on which he was, reported, he was denied the right of explaining his minority report. He agreed with the report in every respect, except in regard to the importation of Chinese. This he was opposed to, and he believed it to be his duty to make his reasons known.

Maj. Flournoy, of Arkansas, called for the reading of the resolution under which the Convention was called; asserting that it was not a labor Convention but a Chinese labor Convention. It was with this sole idea that the planters of Arkansas came here.

Mr. Spears refused to yield the floor to the reading of the call but went on, and was soon embarked in a very elaborate speech, which as we are reporting simply the proceedings of the Chinese Labor Convention, we cannot report here, as it was on matters totally irrelevant, or opposed to the object for which the Convention was assembled. He continued for half an hour or so and was finally interupted by Mr. Peebles, of Tenn., who rose to a point of order.

The Chair declared Mr. Spears in order. Mr. Peebles appealed from the decision to the house, and a division was taken, which resulted in sustaining the decision of the Chair.

The Chair instructed Mr. Spears to proceed, but before he did so, Gen. Forrest said that the people had come together there to get labor and not to talk politics, not to bring up the war, and to abuse and run down the negro. He had seen a good deal of the war, and had taken a very prominent part in it, and he, for one, hoped that in future politics would be let alone, and to hear no more of it.

Mr. Spears then recommenced his remarks, and continued them some ten or fifteen minutes, making assertion that the negroes and Chinese would be in enmity. Gen. Forrest interrupted him and said that while making a railroad speech in Alabama some weeks ago, he announced that he intended to use Chinese labor in building his road; yet he got $1500 in subscriptions to the road from negroes, at the meeting; and this morning he had received a letter from there announcing that there had been stock subscribed by the county, by a vote of sixty to one, and that by the negro vote.

Mr. Spears continued his remarks for some time, when he was interrupted by a motion to adjourn.

The Chair decided that the motion was not in order.

Mr. Cherry said that he hoped those who did not like the speech of Mr. Spears would retire.

The Chair declared Mr. Spears in order, and directed him to continue as soon as the house came to order.

Order was at last restored, and Mr. Spears again commenced his speech, and continued for half an hour or so, when he was again interrupted by some one who rose to a point of order.

Mr. Moore, of Mississippi, said that in order to prevent this assemblage from breaking up in disorder, he would move that Mr. Spears be added to the Committee on Immigration, and the question recommitted. He hoped the Convention would maintain order, and said that he thought the Convention, as a body, had treated itself discourteously.

The Convention was at this point making a good deal of noise, scraping their feet and stamping. The Chair rapped it down several times, and finally Mr. Spears was again allowed to continue. This time he was not interrupted, and in fifteen or twenty minutes closed his speech.

Col. Martin, of Ky., moved that the report be recommitted, and that the committee be made perpetual; that they make as full a report as possible to-morrow, and prepare a more elaborate report for publication at a future time.

At this moment it was announced that Mr. Tye Kim Orr, a Chinese gentleman, was present, and it was moved that he be invited to take a seat upon the stand. The motion was carried *nem. con.*, and Mr. Tye Kim Orr conducted to the stand.

Meanwhile, the resolution and amendment of the gentleman from Kentucky were put and carried.

The Committee on General Immigration being called on, announced, through its Chairman, that it was not ready to report.

Col. Pickett offered a series of resolutions, endorsing Chinese labor, and proposing action in regard to it—it being the safest, cheapest and best—which were adopted.

Dr. F. F. Tabor moved that Tye Kim Orr be requested to address the meeting, but before his motion received a second Gen. Sharpe, of Mississippi, got the floor and attacked Mr. Spears' speech. As long as the gentleman spoke for himself, said he, he (the speaker) had no objection to offer to his remarks or views—every man is entitled to them—but when he undertakes to speak for the State of Mississippi, he would like to see, and demanded to see, his authority. Mississippi had stood side by side with Arkansas, with Louisiana, with Tennesse to vindicate the right, and today she stands side by side with them in this struggle to develop their great interests. This gentleman has done an injustice to his State, and the State repudiates him and rejects his sentiments. Her broad acres lying uncultivated repudiate the sentiments; the experiments of her planters, each year accumulating more losses with the present labor system, repudiate them. "We are not," said the speaker, "here to discuss the question of the propriety or the advantages to be derived from this kind of labor. The only question with us is how to procure it best. The gentleman points to the political contest of last year, and to the glad tidings now speeding through the country from old Virginia. Thank God! this is one question that does not have to be submitted to the negroes for them to vote on! We are not subject to their approval or disapproval in this. If we have to submit this to the negro to-day, to-morrow we will have to ask him about the horses we drive in our carriages, and soon, even, we will have to consult him about the cut of our clothing. This is the very movement that we need. If we were to cast around for some scheme to control the negroes, I would adopt this very one. I feel that the State that I love has been misrepresented.

At the close of Gen. Sharpe's remarks, which were scathing throughout, Mr. Spears arose to reply, but the Chair ruled that he was out of order, the question before the house being the motion of Dr. Tabor to invite Tye Kim Orr to address the Convention. This, on being put, was adopted, and the distinguished foreigner brought forward and introduced.

After being introduced Mr. Tye Kim Orr made an address, semi-colloquial in its character, somewhat as follows. His enunciation is very clear and good, resembling very much that of an educated Spaniard; differing in that respect very widely, however, from the Lascars and Manillamen usually found on the coast. His remarks were somewhat as follows:

Gentlemen: I take the privilege to address you. On Sunday last I was requested by Mr. Greenwood and others to come along and attend this Convention. I am very sorry not to be conversant more with the English language, but will try to explain myself. You want to know about the Chinaman labor. I will tell you my candid opinion; but I left home six years ago—in 1863, and since then I have traveled a great deal in West Indies and South America, and I can't say for certain. Now we have heard of the emancipation and land going to waste, unless we get labor. In the West Indies I studied the character of the people. You know they had emancipation—that was in 1830 something. The negroes, after emancipation, degenerated and would not work. To remedy that they imported Chinese. I can't say how many. In British Guiana there are 12,000. In Surrinan, Martineque, Gaudalupe, there are also some. I don't know the statistics; but they all are getting along well. I know the Chinese are heathens, but you want cotton and cane—and if he makes them you will not object very much to him, [Applause and laughter.] As to his being a heathen, why shall we send the Macedonian cry to you in vain? Shall they say, "come and save us" in vain? No they do not even say that—they will come, benighted as they are, and lie at your door, and say, "do, massa, teach us!" What are the railroads for? What are the telegraphs for? What is this the 19th century for, if not to bring "The Word" to the people who have it not? Do not spurn these people from you. You may be the means of evangelizing them. The Chinese are a docile, patient, susceptible people, and will follow and love those why try to teach and benefit them. Love begets love. You be kind to them and they love you. I don't say that they are all the same. No rule without exception. But it is left you to shut your door against Chinese. Your land is your own. My opinion is that Providence ordained them to overrun the world. There are 350,000,000 of them. They are physically strong, but they have good intention. They can't do so much as white man, but do different kind of work. If you have a grand house yon want a cook. If you have a big table you want a footstool. They can do a great deal, but I warn you not to take them indiscriminately. If you do you get the off-scourings of the race. I went to the West Indies, there I found nothing but misery. You must not take the wharf-rats; you must get them from the rural districts of China—a hundred miles or so from the coast, where the people are agriculturist, what good could a barber do in the field? What good a shoemaker?"

The speaker earnestly cautioned again and again the audience not to rely on speculating agents, but to send agents to China and pick them there. The various members of the Convention began to ask him questians and his answers were somewhat as follows:

Q. How much food do they consume.

A. They are a very frugal people. Forty pounds of rice will last them a month. They raise their own vegetables. In China they get about 18 to $20 dollars a year wages. They grow their own cotton, rice and sugar in China, and know the cultivation. They are an expert people, and have a very strong power to imitiate In China living is very cheap. You can get 133 pounds rice for $2. Here living is dear. In the rural districts you can get men in plenty. The females work in the field with the men. Only in towns the women have so little feet. I am small in comparison to the average size of Chinese. They are not big men, nor strong like white men. In the districts where I came from they grow the nutmeg, clove, indigo, cotton, etc. The people are not fond of ardent liquors—about ten per cent. of the whole people use ardent spirits. In the rural districts you occasionally find one that drinks liquor. As to handling horses they don't know so much. They know how to handle cattle, though.

While Mr. Orr was speaking it was announced that Mr. Koopmanschaap had arrived and was on the platform, and, as soon as the former ceased, the Chair brought him forward and introduced him, amid applause.

Mr. Koopmanschaap, in a few words, made his acknowledgements, and apologized for his seeming delay, by explaining that the train missed connection one or twice. He was astonished, he said, to meet so many persons present, having been told that there would be only a few planters and farmers gathered together. He had been the principal mover in the Chinese importation business, and had brought out all those used by the Pacific Railroad. There are now in California, he said, some fifty to sixty thousand Chinese, and they are an orderly, quiet race. He was induced to think that the prices ranging in California will be too high here. There they get $35 per month. He thought the labor could be procured at $12 per month. In Cuba and Peru they are got at $8. There are still some 3000 at work for the Pacific Railroad at $35. He did not think that they could be relied upon to carry out contracts with planters if other planters offered them better wages.

Gen. Pillow moved that a committee of three be appointed to confer with Mr. Koopmanschaap and with Tye Kim Orr, and report through the papers in the morning.

This resolution was amended so as to include one member each State represented.

Gen. Pillow reported that the Finance Committee had had a conference with the two gentlemen who had recently been added. As these gentlemen stated that their duty simply consisted in attending the Convention and reporting back to their constituents, after due deliberation they had determined not to serve on the committee. They had, however, advised the following amendments to the report:

1st. That the number of directors be changed from seven to twelve.

2d. That books for subscription to the capital stock be opened in New Orleans, Mobile and other Southern cities.

Mr. Peebles moved that the suggestion just made be adopted as an amendment to the report, and that the report be adopted. Both resolutions prevailed.

The Chair appointed the following gentlemen to confer with Messrs. Koopmanschaap and Tye Kim Orr: Clapp of Tennessee, John Williams of Louisiana, John Martin of Kentucky, T. C. Flournoy, E. T. Blewett, G. A. Henry of Alabama, William Green of South Carolina, Dr. F. F. Tabor of Georgia.

Col. Giles M. Hillyer, of the Committee on Immigration generally, made a report, owing to the length of which we are compelled to omit this morning.

The committee of three, to open books of subscription in accordance with report of the Finance Committee, was appointed by the Chair, as follows: E. M. Apperson, Tenn.; John Williams, La.; and John Duncan.

The Convention then adjourned until 10 o'clock this morning.

Fourteenth Civil District.

At a meeting of the citizens of the Fourteenth Civil District, held at McGhee's Station on Wednesday evening, July 14th, at five o'clock, on motion of Col. W. H. Cherry, Ely Rayner Esq., was called to the Chair, and John C. Lanier appointed Secretary.

Col. J. E. E. Ragland and D. H. Poston, Esq., being present, tendered their several resignations as to any former positions held by them as delegates to the Convention to be held on the 15th inst.

Whereupon, on motion of Col. Bradford, it was moved and resolved that the Chairman of the meeting appoint a committee of three to select and present to the meeting the names of three suitable persons as delegates to represent the Fourteenth Civil District in the Convention.

The Chairman thereupon appointed the following named gentlemen on the committee to wit: Col. Bradford, John C. Lanier and W. J. Littlejohn.

The committee then reported the names of the following gentlemen as delegates to the Convention, to-wit: J. E. E. Ragland, David H. Poston and Eli Rayner.

The report of the committee was unanimously adopted—after which the meeting adjourned.

SHOOTING AFFAIR.

Another Chapter of an old Feud---Col. Tom. Dickens Shoots Wade Bolton---The Wound Considered Mortal.

Yesterday morning while Wade Bolton, Esq., was standing at the Main street gate of the Park, talking to Maj. Rambaut, Col. Tom Dickens and Dr. Sam Dickens came along. Mr. Bolton was standing with his back to the fence, and Maj. Rambaut had his hands on his shoulder. As the two Dickens came up Col. Tom Dickens drew an ivory mounted repeater, and without saying anything, presented it and fired at Mr. Bolton. The ball took effect in his left shoulder and ranged backward toward the spine, making a very dangerous if not a mortal wound.

As soon as he was shot Mr. Bolton ran up the street, exclaiming to Deputy Sheriff George Williams that "he was murdered," and told him to "arrest Tom Dickens," as he had done it.

When Mr. Williams came up Dr. Dickens had taken the pistol away from his father, and was holding it in his hand.

Mr. Bolton was taken charge of by his friends, and at the present writing is in a very critical condition. We understand that the Messrs. Dickens, father and son, went before a magistrate and gave bail in the sum of $2500 each, for their appearance to-day.

This affair, we understand, is another chapter in the long history of a bitter family feud, and under all circumstances is a very unfortunate and deplorable affair.

Belle St. Louis..........St. Louis, 5 p.m.

ARRIVALS.

Steamer P. W. Strader, Louisville.
" Minneola, Cincinnati.
" G. W. Cheek, Friar's Point.
" New Era, New Orleans.
" Belle St. Louis, St. Louis,

DEPARTURES.

Steamer New Era, Louisville.
" G. W. Cheek, Friar's Point.
" P. W. Strader, New Orleans.

IN PORT.

Minneola, American, Belle St. Louis.

MISCELLANEOUS.

The P. W. Strader passed down yesterday. She added two or three gipsy families to our floating population.

The Comet did not get away until yesterday.

The New Era passed up for the Ohio, where she will be dismantled.

R. Brannan, Esq., the well known stove and tin ware dealer, left for Louisville yesterday.

The American leaves on Saturday for the Arkansas.

The Minneola came in yesterday from Cincinnati with a good trip. She leaves for that port on Friday. Capt. Miller is master, and Charley Hall chief clerk.

The Geo. W. Cheek had a good trip for the bends

The elegant steamer Belle St. Louis will get away at her usual hour to-day for Cairo and St. Louis. She connects with the trains North and East. Alex. Ziegler is her popular master and Mr. Baskette is clerk.

The Indiana and Lizzie Gill are past due from below.

The Gov. Allen and Mayflower collided a few days ago in the Ouachita. The latter lost her cookhouse and had a wheel broken badly.

The Friendship has been chartered to take the place of the Bon Accord in the St. Louis and Metropolis trade.

The City of Alton is the next boat after the Bismarck for New Orleans, and she will be followed by the Thompson Dean, and the Thompson Dean will be followed by the Great Republic.

The W. A. Caldwell leaves on Friday for the Arkansas.

John D. Paul, the well-know Cincinnati and New Orleans pilot, died at Newport, Saturday, of erysipelas, aged 27 years.

The bridge across the Mississippi above St. Paul will be done within two months.

The St. Louis *Republican* says the river is stationary after a swell of two inches. All intelligence from the north represents a continued decline of the upper rivers at all points, but generally to a good condition for navigation still. The hot weather has a powerful effect on the waters, causing them to rapidly decline. Business among the boats continues fair for the season. Our tonnage could of course do three times as much business as they are doing, but there is still little reason to complain, as busy times are near at hand.
